

### **Acid Vapor Neutralizer rust preventive and inhibitor 44011**

- The one-step rust preventive
- New aerosol formulation contains no Chlorinated Solvents!

Formulated to protect plastic molding dies while in storage from corrosive attack by hydrochloric and hydrobromic acids plus protects molds from most common corrosive damage that is found in the atmosphere. Protects against fingerprint acid. Acid vapors produced during molding will be neutralized when they come in contact with Acid Vapor Neutralizer. Length of protection is dependent on amount of PVC and F/R being molded. NOTICE TO PURCHASER: User shall determine suitability of product for his intended use and assumes all risk and liability in connection herewith.
