

### **Mold Saver mold release agent No. 42516T**

- Non-silicone
- Prevents deposit build-up
- Fully paintable

Neutralizes corrosive vapors emitted by flame-retardant plastics and PVC during molding. It is imperative that Mold Saver be sprayed into the cavity regularly while molding to prevent mold deposits from forming and attacking the mold.

NOTICE TO PURCHASER: User shall determine suitability of product for his intended use and assumes all risk and liability in connection herewith.
