

AceTRONIC has designed a **free-to-use recycle program** for your old controller cards. Simply return your old, unfixable, broken controller cards to AceTRONIC and we'll give you \$25 credit toward the purchase of a new controller card.

Don't throw your controller cards into industrial waste containers

We will ensure the safe disposal of your returned controllers.

Return • Recycle • Reward

\$25

We have **teamed up with Greentec** to ensure the disposal of the various components in the most ethical way.

- plastic goes to a compounder,
- metal goes to a smelter
- other parts are sent for reuse

GREENTEC

From knowing comes caring....From caring comes change.

Acetrionic does NOT make any money from this service, in fact, it is a cost to us. However, it is our small way of doing our part to ensure our industry is responsible with its waste.
