

CAMSC Drives Momentum and Highlights Economic Leadership at 14th Annual Business Achievement Awards Gala

2018 Winners and Highlights:

Small Business of the Year 2018 was awarded to **AceTronic Industrial Controls Inc.** Established in 1983, AceTronic manufactures, distributes and services products that manufacturers in Canada and the U.S. use to make plastic components. In the last decade, AceTronic has been scaling its cable manufacturing business, investing in equipment, technology and people. This has attracted large international corporations in the plastics machinery sector that resulted in upwards of \$1.5M in sales over the past year with potential for increased growth. To keep up with this growth, the company has invested in a new Enterprise Resource Planning system to improve efficiencies.
